17. I have a dream...

19. Words of the wise

Message From Senior

Hello Puratech Family,

How is it going???

I am Siddharth Pandya, I have joined the Puratech family just little over a month ago. I come with professional experience of over 13+ years in operations, business process and continuous improvement.

Life is all about change and improvisation. Like no season is permanent, no situations or phases in life are permanent. And the same applies at work. In these 13 years of my career the most important thing that I have learnt is that if one doesn't change with changing times, one will never be able to grow. Technology and the way professional workplaces operate are changing every 5 years. It is important to keep ourselves updated and keep learning and acquiring new skills.

However, one thing that haven't changed and will not change over years is how we treat and communicate with our colleagues and customers. Always, treat them the way you expect to be treated if you were in their shoes. Communication and collaboration go a long way. Communicating to each other be it about work or about difference of opinions that we might have will give a lot of clarity in the relationships that we share with each other and have a direct impact on business.

My grandfather is a great businessman and a visionary. He always tells me one thing that I carry with myself every day to work.

'Treat a business or a department as if you own it and you will excel and see tremendous growth not only for yourself but for people around you too which will give you immense satisfaction.'

Finally, just one more thing. Home and workplace is where an individual spends more than half of his lifetime. Make that time worth it for yourself and people around you at these places. In the end it's how you make another person feel is what is going to be remembered.

Kar bhala toh ho bhala 🙌🙌

Siddharth Pandya
Operations Lead
